

Turn Your Inefficient Testing Process Around!

Q: What's available to help me **cut down on the inefficient, time consuming and costly process** of creating and grading tests?

●●●● **A: Teaching Assistant**

Powered by HyPAS

- Introducing Kyocera's Teaching Assistant:
An **affordable test creation, grading and analysis solution designed to streamline classroom workflow**. Use Teaching Assistant to **create customizable bubble sheet tests**, then grade and provide analytical feedback within a matter of seconds. With Teaching Assistant, the Kyocera MFP does the work; educators can concentrate on the students themselves and lesson plans, not on the time consuming, error prone process of manual test grading.
- Transform your Kyocera MFP or multifunctional printer into a test creating, grading and analyzing solution.

Key Features

- Customize and print easy to use bubble-sheet forms
- Quick scanning of completed test sheets and teacher answer key for instant, on-demand, accurate grading
- Available on all Kyocera HyPAS enabled MFPs and HyPAS capable multifunctional printers
- Exports results in PDF format to email, USB device or print on demand
- Summary and detail reports provide instructors with at-a-glance feedback on student achievement

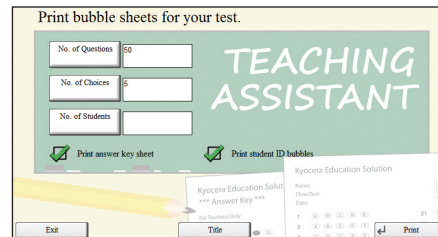

Q: How does it work?

○ ○ ○ ○ **A:** Through a very efficient, teacher-friendly process!

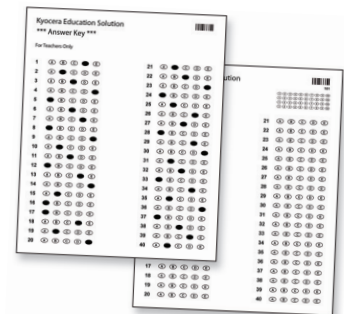

1. Print Test Sheets

Select "Print Test"

Customize Test Settings

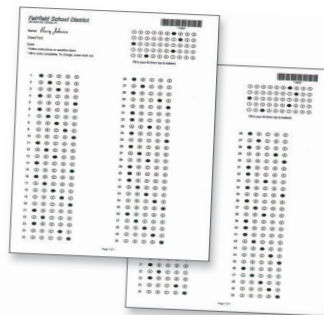

Print Bubble Sheets and Answer Key

2. Grade and Analyze

Select "Grade Test"

Scan Completed Tests and Answer Key

Grade, Analyze and Export

Benefits

- No server, PC or back end IT systems required to use Teaching Assistant, saving personnel and infrastructure costs
- Bubble sheets and answer key print on plain paper, eliminating the need for special media and scanning systems, lowering costs across the board
- Ability to route test results as PDF files to email and USB – save paper, toner and energy
- Comprehensive analytics drill down to the 10 easiest and 10 most difficult questions, enabling educators to identify strengths and weaknesses and gear classroom instruction accordingly
